Open House

The School's biennial Open House on September 21 at New Bolton Center drew huge crowds—the estimate is that about 13,000 people came to tour the campus and to enjoy the exhibits and entertainment. It was a beautiful, sunny and warm day and New Bolton Center sparkled. People toured the new Scott Equine Sports Medicine Building, the swine facility and the Marshak Dairy in addition to the other buildings of the George D. Widener Hospital for Large Animals.
